Included in the day:

- This day is to connect you to the Angelic and Unicorn energies.
- Receive messages from the Angels and Higher Dimensions.
- Learn how to increase your awareness and develop your own connection.
- During each workshop you will be guided in inspirationally lead visualisations to connect with your own inner guidance, your own Higher Self & the beings of light that we will be invoking.

Jacqueline's wish is to receive as much information as possible for as many people as possible. Therefore, the day will include a special Psychic Forum where messages will be given to everyone.

Jacqueline is a third generation clairvoyant medium having inherited the 'psychic' gene from both sides of the family and has been aware of and in contact with the spirit world around her since childhood.

She has also trained over the last 20+ years with many well known mediums and more recently become a Teacher with the Diana Cooper School of Angels & Ascension. Her awakening to the Angelic Realms began 20 years ago during a trance channelling session when amongst other guides her Guardian Angel came through her and introduced himself as 'Abraham'. Since then her spiritual work with the Angelic Realms has guided her to bring Angels into all aspects of her life and therapy work/healing. Today in her Workshops she brings through a connection with many of the Higher Beings of Light including Angels, Unicorns & Ascended Masters.
